

American Bulldog SOS

Thinking About Breeding ?

Think Again!

Rescues and dog pounds are full of unwanted American Bulldogs. There has been a population explosion and many are now dying as there are simply not enough good homes to go around anymore, nor rescues with space and resources to cope; rescues who struggle to pick up the pieces and try to help those who desperately need it. Unwanted and homeless is the fate for many dogs due to the unscrupulous breeding by those who either don't care or are unaware of the critical situation faced by many American Bulldogs and Bulldog crosses.

Why breed more dogs to end up unwanted?

**PLEASE Don't ADD to the problem:
By breeding more dogs to DIE.**
